### *Illum/I Gents Sports Watch*

Two-body stainless steel case, satin finish, black dial, luminous hands and indexes self-winding lever movement, rubber strap, case caliber 42 mm

#### **International Warranty**

We wish to thank you for the confidence in our company by deciding to purchase an Angular Momentum timepiece. We hereby certify that your watch is an original Angular Momentum creation, designed and manufactured in our workshops in Bern, the Capital of Switzerland, according to the most stringent standards of precision and quality.

Created by highly skilled craftsmen and artisans, it has undergone machining and adjusting checks performed according to the latest scientific methods available in the watchmaking industry. Each Angular Momentum time piece bears an individual identification number to prove its origin and authenticity.

Only dealers approved by Angular Momentum, exclusive distributors of Angular Momentum time pieces and Angular Momentum technical assistance centres are authorized to provide International warranty service for Angular Momentum products.

Angular Momentum places its international after-sales service at your disposal all over the world. Your Angular Momentum time piece is guaranteed for two years from the date of purchase against all manufacturing and raw material defects. Throughout the warranty period, any part which proves to

be defective because of a manufacturing fault duly established by our technical services will be replaced free of charge by Angular Momentum of Switzerland.

However, this warranty does not cover damage caused by: - accidents such as shocks, dropping etc. - use in a manner not compliant with Angular Momentum's recommendations - dismantling of the watch by a person other than a specialist approved by Angular Momentum and the resulting loss or damage to components.

This warranty does not cover the replacement of parts made necessary by routine wear and tear.

The International Warranty Certificate must be duly completed and kept. Should a claim become necessary under this warranty, please bring or send your watch with the warranty certificate to the nearest Angular Momentum specialist to your place of residence.

Clauses Are not included in the warranty:

The crystal, the bracelet or strap, the damaged case for bad use and the crown. This warranty is valid as far as it is duly filled up, signed by the retailer and sent back to Angular Momentum of Switzerland.
