Angular Momentum of Switzerland

Classic Skymaster

Classic Skymaster

Three-body 1.4435NcU „Staybrite“ steel case, 36 mm diameter, double curved sapphire crystal, transparent back. Solid Mother of Pearl dial with diamond polished indexes. Historical new-old-stock self-winding movement caliber AS 1704 Skymaster, 41 jewels, 18'000 A/h, power reserve 42 hours, balance with balance screws, red gold plated. Limited Edition, completely hand made.

(A. Schild SA was one of the leading movement manufacturer during the golden era of Swiss watchmaking and specialized on the production of self-winding movements.

The excellent Skymaster caliber was produced in very small numbers in 1965)
