Angular Momentum of Switzerland

“Whatever you choose, when wearing, keep the rest of your ensemble simple because these pieces deserve to stand out.”

*A*ngular Momentum, a Swiss watch company, has coupled RDS technology with elegance and a trim sporting look.

Angular Momentum is also a company renowned for their creativity and innovative design.

When it comes to l'horlogerie, designers usually like to keep things simple, especially when it comes to the timepiece's face. Thanks to jewelry designers and watchmakers, timepieces are starting to become individual works of art.

However, no other line devotes itself to the detailed beauty of watches more fully than Angular Momentum of Switzerland.

Whatever you choose, when wearing, keep the rest of your ensemble simple because these pieces deserve to stand out.
