Sparkling Timepiece Collection

Sparkling timepiece with hour and minute hands

Two-body 1.4435NcU Staybrite steel, black polished. The polish was made with a lately discovered polishing paste used for polishing Cobalt-Chrome prosthesis. The double curved sapphire crystal is partially coated on the reverse with black urushi lacquer and diamond splitters, so the dial and the back crystal. Historical (NOS) hand-winding Caliber ETA 2512 made in 1975. Case diameter 37.50 mm
